Titles

(A) comparison of sources of links for academic Web impact factor calculations, THELWALL, M., No. 1, pp. 66-78.

(A) conceptual model giving primacy to expresssion-level bibliographic entity in cataloging, TANIGUCHI, S., No. 4, pp. 363-82.

Consistency of subject indexing of novels by public library professionals and patrons, SAARTI, J., No. 1, pp. 49-65.

Co-term network analysis as a means of describing the information landscapes of knowledge communities across sectors, JACOBS, N., No. 5, pp. 548-62.

Digital libraries and reference services: present and future, CHOWDHURY, G.G., No. 3, pp. 258-83.

Domain analysis in information science: eleven approaches – traditional as well as innovative, HJØRLAND, B., No. 4, pp. 422-62.

(The) economic value of book borrowing from public libraries: an optimization model, SUMSION, J., HAWKINS, M. and MORRIS, A., No. 6, pp. 662-82.

Evidence for the existence of geographic trends in university Web site interlinking, THELWALL, M., No. 5, pp. 563-74.

(The) impact factor as a phantom: is there a self-fulfilling prophecy effect of impact?, LANGE, L.L., No. 2, pp. 175-84.

(The) impact of location on the use of information systems: case study – health information kiosks, NICHOLAS, D., HUNTINGTON, P. and WILLIAMS, P., No. 3, pp. 284-301.

Interpersonal sources of health and maternity information for Somali women living in the UK: information seeking and evaluation, DAVIES, M.M. and BATH, P.A., No. 3, pp. 302-18.

Modelling what users see when they look at images: a cognitive viewpoint, GREISDORF, H. and O'CONNOR, B., No. 1, pp. 6-29.

Network competence and information seeking on the Internet: from definitions towards a social cognitive model, SAVOLAINEN, R., No. 2, pp. 211-26.

(A) proposed ethical warrant for global knowledge representation and organization systems, BEGHTOL, C., No. 5, pp. 507-32.

Providing information on economic and monetary union: a case study of the East Midlands European Information Relay, COUSINS, S.J. and MUIR, A., No. 4, pp. 396-421.

(A) qualitative study of collaborative information seeking, PREKOP, P., No. 5, pp. 533-47.

Quality of smoking cessation information on the Internet: a cross-sectional survey study, ADEMILUYI, G., REES, C.E. and SHEARD, C.E., No. 6, pp. 649-61.

Questionnaire surveys to discover academic staff and library staff perceptions of a National Union catalogue, STUBLEY, P. and KIDD, T., No. 6, pp. 611-48.

(The) J-shaped distribution of citedness, NICOLAISEN, J., No. 4, pp. 383-95.

(A) research and institutional size-based model for national university Web site interlinking, THELWALL, M., No. 6, pp. 683-94.

(The) role of subject literature in scholarly communication: an interpretation based on social epistemology, A. JERSEN, J., No. 4, pp. 463-81.

(The) super-metadata framework for managing long-term access to digital data objects: a possible way forward with specific reference to the UK, CHILVERS, A., No. 2, pp. 146-74.

Theoretical and methodological approaches to the study of information need in the context of the impact of new information and communications technologies on the communication of parliamentary information, MARCELLA, R., BAXTER, G. and MOORE, N., No. 2, pp. 185-210.

Using Dewey decimal classification scheme (DDC) for building taxonomies for knowledge organisation, SAEED, H. and CHAUDHRY, A.S., No. 5, pp. 575-83.

Web search strategies and retrieval effectiveness: an empirical study, FORD, N., MILLER, D. and MOSS, N., No. 1, pp. 30-48.

Women on the Web: a critical appraisal of a sample reflecting the range and content of women's sites on the Internet, with particular reference to the support of women's interaction and participation, MARCELLA, R., No. 1, pp. 79-103.
